Art Unit: 1623

Claims 1, 6-10 and 18-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. the terminology "heating the GLCN beverage to a temperature of at least about 165 F and maintaining the temperature for about 3 minutes" (claim 1) and "heating the GLCN beverage to a temperature of at least about 212 F and maintaining the temperature for at least 60 seconds" (claim 18) is not disclosed or suggested in the specification as originally filed. It is noted that on page 6 of the specification support is provided for heating GLNC beverage at a temperature of about 165 F for about 3 minutes and on page 5 of the specification support is found for heating GLCN beverage for at least 60 seconds at 212 F. However, note that the terminology "at least about 165 F" and "at least about 212 F" encompasses temperatures much higher than 165 F or 212 F such as, for example temperatures above 280 F. Note also that on page 6 of the specification, it is also stated the GLNC beverage is heated at a temperature of at least about 280 F for about 1-2 seconds.

Applicant's arguments filed January 6, 2010 have been fully considered but they are not persuasive.

As explained above, the specification as originally filed, does not provide support for heating GLCN beverage at a temperature of more than 280 F, as encompassed by the present claims, for a period of at least 60 seconds or 3 minutes.

Art Unit: 1623

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
